BIG AGRICULTURAL LAND OPENING

An Opportunity to Secure Rich Productive Land Without Capital

You will not be required to leave your present surpounchings now. All we ask of those to whom we grant racts is that they plant, or arrange to have planted, a rop of one of the above-mentioned products within here years, after which we will have it operated characteristic and replanted) for grantees, in consideration of the crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just what the yield of their acres amounts to. Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to \$1.28.45, and that one acre of well-caracter paper shell pecans. In full bearing, should not its sowner as high as \$150.50 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further urging, and water he time in locating in thus land of plenty. We also require grantees to occupy the land within ten years, or sell it to some one whe will occupy it otherwise it reverts back to the grantor.

The land included in this opening is beated directly on and adjoining the Atlanta, Birmingham and Atlante Hailroad, about twenty-dive miles west of Branawick, a thriving city of fitneen thousand, having direct steamship service to New York and Boaton, and excellent railroad transportation facilities to all points. The haverage temperature for its manifest of the year, from April to fectober, is 37 degrees, the climate is most leathful, delightful, and lavingurating, and there is an ample rainfull of 51 inches per year.

OUR AIM IS FOR MUTUALLY BENEFICIAL RESULTS As we are extremely desirous of having settlers locate on this property, and amint in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic atong the Arianta. Birmingham and Atlantic Rullicond, and thus facilitate the service, we feel warranted in granting these grants to those who register with us. We also have an mind husiness and residence to the descendants of those who secured had the obtained in land are now the peaches and diverse with us. We also have an mind husiness and residence plots which we will not be included in it. We have "meanys which will not be included in it. We have "meanys making afterward" considerations in this illustrationized.

opening, similar to those of the Northern Pacific and other railroads when they granted their lands, and we expect to benefit thereby us well as the ones who will receive the tracts.

We have also planned to develop what is designed to be the best equipped, most up-to-date, shientific, commercial farm and orchard in existence. It will consist of six thousand acress and will be included in this opening. All who resister and receive tracts will get the benefit of the experiments and selentific methods in vogue thereof. While we are arranging to precent over-registration, we will avoid many disappointments, such as occupied in other land openings conducted by the United States Government and railroads, by grouting those who register in excess of the number of tracts to be graph, an interest in this commercial farm and orchard enterprise. In the hope that they may later locate it, one of our town sites.

Examination of the land will cheerfully be permitted, and the opening will be held at Brownstown. Warner County, Georgia, one of the stations of the A. R. & A. Bailroad, which is located on this property and will occur as soon after the closing of registrations as arrangements can be made.

The presence of those registered will not be necessary at Brownstown as the opening flay unless they wish to altend, for there will be not fine property and will be conducted by a committee selected for the purpose, and those registered all be not fined of what they have been granted, as soon at parasities and independence, it will be conducted by a rounnities selected for the purpose, and those registered all be not fined of what they have been granted to be harder to severe.

With the reserimerasing population of this country there is no corresponding hereave in the area of land, and unterally as the population increases and seeks the land is purvoit of health, happing as and independence, it will continue to be harder to severe.
